TENABLE ONE VULNERABILITY MANAGEMENT SPECIALIST CERTIFICATION EXAM

TENABLE ONE VULNERABILITY MANAGEMENT SPECIALIST CERTIFICATION

Tenable One Vulnerability Management is a comprehensive cloud-based vulnerability management solution that provides complete visibility into the security posture of your distributed and complex IT infrastructure. The Tenable One Vulnerability Management Specialist Certification is a two-part exam; written and practical, that validates your ability to plan, deploy, verify and troubleshoot the platform.

The exam is taken online in a proctored environment. The written exam must first be completed before you are allowed to take the practical exam. Upon successful completion of both exams, a Tenable One Vulnerability Management Specialist Certification will be provided in electronic format.

WRITTEN EXAM

Candidates are required to complete a sixty (60) question exam. The exam bank consists of both multiple-choice and true/false questions. We suggest candidates read the questions carefully before answering.

Two (2) hours are allocated for completion, and a minimum score of 80% is required to pass.

PRACTICAL EXAM

Candidates are required to complete a set of activities simulating a real-world environment. The practical exam can include up to thirty (30) tasks to complete, and each is scored equally.

Four (4) hours are allocated for completion, and a minimum score of 80% is required to pass.

WHAT YOU WILL BE TESTED ON

1. Host Discovery
2. Vulnerability Assessment
3. Installation
4. Configuration
